- Brightness: 90%

Made in USA 

Features & benefits

- **Cost effective** - create and print your own multi-part forms
- **Flexible options** - available in pre-collated and uncollated sheets for 2, 3, 4 or 5 part forms
- **Save time** - writing is transferred through multiple layers of paper through safe chemical coatings
- **Gain control** - update your own forms on-demand, as often as you need to
- **Reduce waste** - print only what you need, when you need it
- **Clean runnability** - specially designed and manufactured for safe & damage-free use in printing equipment
- **Finishing**- forms can be stapled, paper clipped or glued to create your form sets
- **Sustainably sourced** - Sustainable Forestry Initiative (SFI) Certified Sourcing Chain of Custody available upon request for SFI, Forest Stewardship Council (FSC) & Programme for the Endorsement of Forest Certification (PEFC).
- **Compatible** with laser printers, inkjet printers, offset press, high-speed copiers and digital duplicators

LASER COMPATIBLE

OFFSET COMPATIBLE

HIGH-SPEED COPIERS

DIGITAL DUPLICATORS

Helpful resources

- **Before you purchase** - order the correct collation type of carbonless paper (reverse vs. straight) for your printer - refer to our document for help: [REIMAGE Determining Straight vs. Reverse](#)
- **Before you print** - do a quick test to make sure you load the paper into the tray correctly - refer to our document: [REIMAGE Printing Directions](#) and print like “normal” paper, no special settings are required
