## **Relyco Partners with DSS to Develop Industry's First "Super Check" Offering Maximum Fraud Prevention**

*PROCHEK+PLUS™ line of blank laser check stock delivers 16 fraud-preventing security features including advanced Securatek™ Copy Prevention Technology*

**Dover, N.H., September 20, 2011** – [Relyco®](#), a leading provider of value-added [business printing and payment solutions](#), today announced its partnership with [DSS](#) (Document Security Systems, Inc.), a leader in customized document protection solutions, and the launch of [PROCHEK+PLUS™](#), the industry's first "Super Check." PROCHEK+PLUS is the most secure blank laser check stock available featuring 16 fraud deterring security features, including Securatek™ Copy Prevention Technology, the newest development in check security.

As an active member of the [American National Standards Institute's \(ANSI\) ASC X9.B check processing subcommittee](#), Relyco is an innovative leader in check fraud prevention strategies and an expert source for organizations printing checks in-house.

"Even as more financial transactions move to electronic processes, paper-based checks are still a big part of how we conduct business and make payments. As a result, there continues to be check fraud that leads to significant financial losses," said Mike Steinberg, president of Relyco. "We help companies prevent check fraud by delivering high quality and exceptionally secure check stock that is very difficult to tamper with. Our check security expertise as an ANSI member and partnership with DSS enables us to develop innovative products such as PROCHEK+PLUS to help keep our customers safe from fraud."

Relyco's most advanced and secure "super check," [PROCHEK+PLUS](#), is the first of many solutions [Relyco](#) and [DSS](#) are working on. Together, this new partnership will coordinate the joint creation of homeland defense solutions for governments around the world, protection solutions for large manufacturers, prescription and vital record security for healthcare organizations, transcript and diploma protection for academic institutions, as well as anti-counterfeiting solutions for financial institutions. As partners, Relyco and DSS have the combined expertise and experience to develop the best solutions for any security requirement.

"Before Relyco chose DSS for its PROCHEK+PLUS, the company tested many other security papers from different vendors," said Jason Grady, vice president of sales and marketing at DSS. "Ultimately, Relyco decided to partner with us because we met their high standard for quality and security requirements, which enabled them to produce a superior laser check."

PROCHEK+PLUS is part of [Relyco's full portfolio of secure, premium business laser checks](#). The new Securatek feature makes the reproduction of protected documents virtually impossible on a digital color copier. In addition to its many other security features including Enhanced Toner Adhesion, Covert Fluorescent Fibers, and Solvent-Reactive Color Spotting, PROCHEK+PLUS also offers DSS's AuthentiGuard® Pantograph 4000™— making the “cut-and-paste” check altering method a thing of the past. Other unique features include:

- Coin-reactive paper with an invisible layer that changes color when scratched with a coin
- Thermochromatic heat-reactive ink causes the words “Original Document” to disappear when heat is applied
- Copy-void safety feature in the Endorsement Backer helps prevent copying of signatures
- Simulated Watermark is only visible at 45 degree angle and cannot be easily photocopied or scanned

### **Complete Turnkey Check Printing Solutions**

Additionally, Relyco offers affordable, turnkey in-house check printing solutions with [MICR laser check printers](#) starting at the lowest entry point of \$450. Other products include [MICR laser toner](#), [check printing and signing software](#), [online paystub and W-2 software](#), [secure envelopes](#), [ULTRASEAL® pressure seal check stock](#), and [post-processing and pressure seal equipment](#).

### **Pricing and Availability**

[PROCHEK+PLUS](#) is currently available. For pricing and more information, contact Relyco by calling 1-800-777-7359 or emailing [info@relyco.com](mailto:info@relyco.com).

### **About DSS (Document Security Systems, Inc.) (DSS)**

DSS is comprised of four operating groups, DSS Plastics Group, DSS Printing Group, DSS Packaging Group and DSS Digital Group. Through these divisions, DSS provides counterfeit prevention and comprehensive brand and digital information protection solutions to corporations, governments, and financial institutions around the world. DSS develops and manufactures products and services containing patented and patent pending optical deterrent technologies that help prevent counterfeiting and brand fraud from the use of the most advanced scanners and copiers in the market.

The Company owns numerous patented and patent pending technologies and products. DSS uses its covert and overt technologies to protect a wide range of documents including, but not limited to, consumer packaging, vital records, ID Cards/RFID, smart cards, passports, gift certificates, checks and coupons. The Company also protects digital information via secure cloud computing and disaster recovery services.

Furthermore, DSS uses its extensive knowledgebase to provide comprehensive brand protection solutions to its customers. From risk analysis and vulnerability assessment, to systems integration and monitoring, DSS offers the advanced tools and knowledgebase needed to protect the world's most valuable and at-risk brands. DSS's customized solutions are designed to protect against product diversion, counterfeit, and other costly and damaging occurrences. For more information on DSS and its subsidiaries, please visit [DSSsecure.com](http://DSSsecure.com).

### **About Relyco**

Relyco is a leading provider of value-added business printing and payment solutions with over 10,000 customers worldwide. As one of the largest distributors of laser and digital applications, including laser checks, high-security documents, and e-payment software, Relyco's long-standing membership in the ASC X9AB check processing committee and extensive experience with fraud prevention strategies and new forms technologies positions it as the most innovative leader in the business printing solutions field. Relyco's customers include Google, PepsiCo, Samsung, Adobe and Microsoft. For more information, please visit <http://www.relyco.com>, call 800.777.7359 or 603.742.0999, or email [info@relyco.com](mailto:info@relyco.com).
